Was that cold syrup? You don't feel any different. Item is destroyed

Your insides are burning and it doesn't stop. Your CR drops to 0, and you are unable to use weapons or your combat abilities for the rest of the game. If you were infected, you are no longer infected and you lose your ability to spread the plague. If you weren't infected, all you know is that you are probably crippled for the rest of your life. Item is destroyed
